

SF-25

Shallow Water Hydrophone

SF-25 has stable output and good consistency. The low impedance makes it match with various seismic acquisition system easily, and the sensitivity is stable. The molding case makes it perfect waterproofness and the strong protective cover avoids impacting damage.

Type Index	SF-25 (20°C)
Natural frequency (Hz)	$10 \pm 10\%$
Sensitivity ($\mu V/\mu \text{ bar}$)	$14 \pm 15\%$
DC Resistance (Ω)	$155 \pm 10\%$
Insulation Resistance ($M\Omega$)	≥ 100
Maximum Operating Depth (m)	76.2
Operating Temperature ($^{\circ}\text{C}$)	0 ~ 35
Polarity	SEG
Dimension (L*D,mm)	150*66
Weight(g)	600
